

THE RANDAL PROGRAM

RANDAL
RETAIL GROUP

SAVE TIME, MONEY & HEADACHES

ALL OF RANDAL'S CORE SERVICES IN ONE TURN-KEY SOLUTION

We know everybody's unique – let us build a program that fits your specific needs. Designed especially for anyone building multiple new projects or remodeling existing spaces. One direct vendor. One locked-in pricing structure. One execution of your unique brand standards. One partner you trust.

BASIC

We will secure and hold raw materials only, in quantities that make sense. When you're ready to start a project, we begin manufacturing immediately, without delays due to supply-chain issues, keeping you on schedule.

MEDIUM

In addition to raw materials, we'll build and stock finished millwork and fixtures that are standard from project to project. This is typically 70-80% of the site – the rest, we'll build custom, per the unique conditions. This keeps us ahead of your development schedule.

HIGH

We will build and hold all of your millwork, fixtures (and anything else you need) in larger quantities, so that you always have ample stock on hand, and we can ship within a few days of receiving an order.

CONTROLLED COSTS

Rising costs of raw materials won't affect your project's budget. You're locked into pricing ahead of time.

LEAD TIME

Stop paying crews to stand around, and worrying about late openings. Everything you need will be done and ready when you need it.
